

SUBMISSION INSTRUCTIONS

Assignments hardcopies must be printed and submitted.

Use the following format for the PDF Report:

- **Font Type:** Tahoma
- **Font Size:** 12
- **Line Spacing:** 1.5
- **Alignment:** Justify

Final Project: Secure Network Design and Configuration

Group Project 35%

Objective:

Design and implement a secure network infrastructure for a hypothetical organization. The project should focus on securing the network against various attacks while maintaining efficiency.

Project Details/Guidelines:

- Design a network topology that includes firewalls, VPNs, and IDS/IPS systems.
- Set up and configure firewalls
- Implement VLAN segmentation to reduce the attack surface.
- Simulate common network attacks (DDoS, MITM) and assess the network's response.

Assessment Criteria

This assignment carries **100** marks and contributes **35%** to the total mark of this module.

The following table breaks down the specific marking Criteria to be used for this assignment.

CRITERIA	MARKS
Network Design	30
Network Configuration	30
Security Mechanism	30
Testing	10
Total	100

SUBMISSION INSTRUCTIONS

- Design and configuration must be done on a network emulator e.g. Packet tracer, Evening etc. and a written report submitted to supplement the lab.
- Use the following format for the documentation/report:
 - Font Type: Tahoma
 - Font Size: 12
 - Line Spacing: 1.5
 - Alignment: Justify

Note: Please adhere to the university's policies on academic integrity and plagiarism when completing this assignment.
